Commissioner for Patents

The IDS filed on 3/27/2009 contained a bulk NPL submission not noticed by the examiner. The multiple references in the bulk submission have been considered in this updated IDS. The first NPL reference crossed out isn't considered because of poor scanning quality that renders part of the reference unreadable. The second NPL reference crossed out isn't considered because page 10 of the reference is missing. These crossed out references can be resubmitted prior to payment of the issue fee if they are accompanied by a 1.97(e) statement and a 1.17(p) fee. See MPEP 609.01.
